

Reach Directive EC 1907/2006 – Articles

To whom this may concern,

Under the terms of the above directive, this is to advise you that at the time of writing and as the manufacturer of our capital equipments, it is our considered opinion that the products sold to you by Wiedenbach Apparatebau GmbH, will not contain any of the 15 Substances of Very High Concern (SVHC) items so far identified on the current REACH Candidate List.

None of the design specifications for our Capital Equipment would have employed items containing the quoted substances as "intended for release".

We are in direct contact with our suppliers to ensure that all components of our products are Pre-Registered or Registered. All necessary actions are in line with our suppliers and their suppliers.

Wiedenbach customers are classified as Down Stream Users under REACH and do not need to Pre-Register or Register under the legislation. Wiedenbach, in most instances is also a Down Stream User under REACH, as we do not make chemical substances.

We will – together with our suppliers – guarantee to supply our products for our customers in future. Until today we do not have any indication that the REACH legislation will have any impact on our ability to deliver.
